The M.Ed. in special education provides aspiring educators with the tools they need to make a difference in the lives of children, youth and adults with disabilities through research, teaching and service. Successful completion of our degree programs can lead to endorsement in areas such as early childhood special education, special education: general education curriculum or special education: adapted curriculum.

**Application Requirements:**

- Graduate school online application
- Bachelor’s degree in appropriate discipline
- Transcripts from previous academic work
- Three letters of recommendation
- Statement of intent
- Completion of GRE or MAT
- Completion of the SEDP 630 course (can be integrated into first year)
- Personal interview may be required

**Concentrations:**

- Early childhood
- General education
- Severe disabilities
