The aim of the Innovative Teacher Pipeline is to prepare teachers to best support educational excellence & equity particularly for Black and LatinX school children.

Goals for Innovative Teacher Pipeline Scholars
- Prepared to teach in urban settings and schools that have been historically marginalized
- Positive Return on Investment for local schools
- Cultural responsive readiness credentials for teaching Black and LatinX school children

Unique Features of the Pipeline
- Direct experience in working in urban and hard to staff schools
- In-depth and reflective analysis of diversity, inclusion, equity, and implicit bias
- Engaging community-based learning experiences
- Professional growth opportunities focused on implicit bias and culturally responsive teaching through a critically reflective lens
- $1,000 stipend per year

Desired Outcomes of the Pipeline
- Strengthening student learning outcomes for Black and LatinX school children
- Increased retention of new teachers in hard to staff schools
- Increased effectiveness of new teachers in Title I schools
